

What's for Dinner?

Carnivores -- are animals that eat a diet consisting mostly of meat.

Herbivores -- are animals that eat a diet consisting mostly of plants.

Omnivores -- are animals that eat a diet consisting of plants and meat.

Which are you?

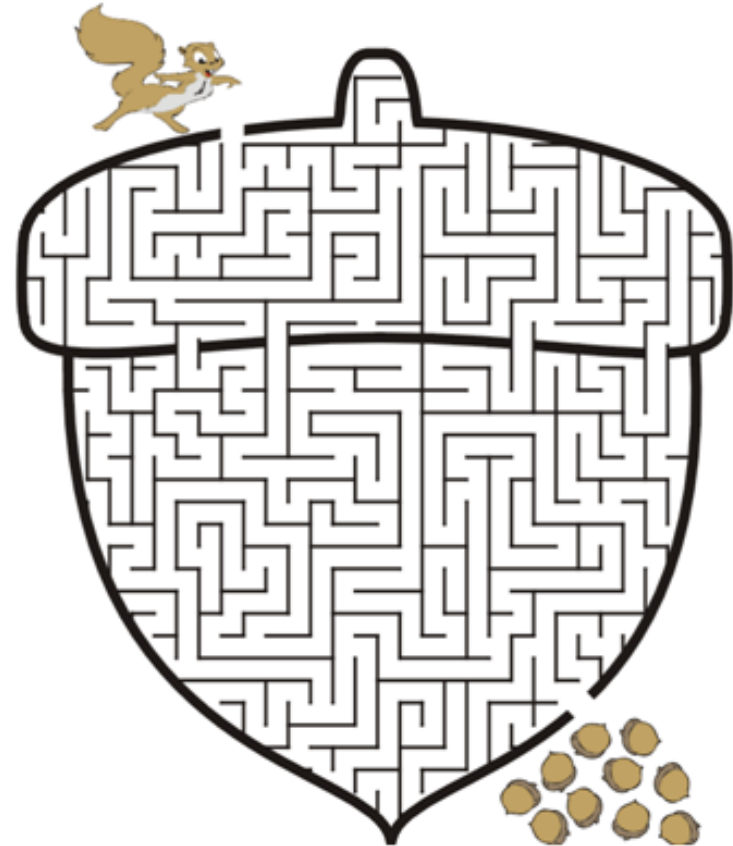

Sandhills Area Land Trust

Nature often holds up a mirror so we can see more clearly the ongoing processes of growth, renewal, and transformation in our lives.

Mary Ann Brussat

Help the squirrel through the maze to find its acorns

Sand In My Shoes: Take a Child Outside, sponsored by the Sandhills Area Land Trust, is designed to create in children a life-long love of nature and instill an understanding of the interconnectedness of all things, resulting in healthier children and a generation knowledgeable and passionate about their future role as "stewards of tomorrow."
